Project #2:

Color Block Cushion Cover

Level: Intermediate

You'll be working with three beautiful colors, creating a striped effect. The cover consists of a decorative front panel and a back panel that allows for easy insertion and removal of the cushion. The overlap design of the back ensures a snug fit without the need for buttons or zippers.

The best part is that you can mix and match colors to fit your style or mood. Feeling bold? Go for bright contrasts. Want something calming? Try soft, similar shades.

With color 14607, ch45.

Row 1

Starting in the 2nd ch from the hook, 44sc.

Rows 2-9

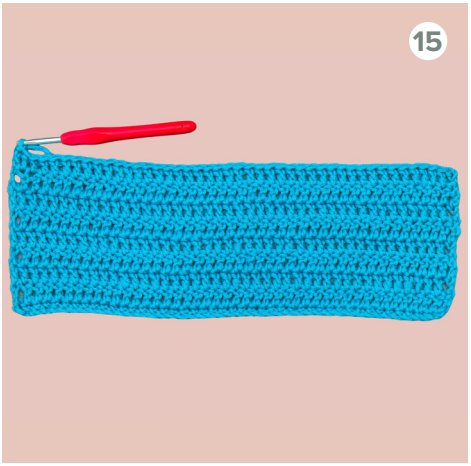
Ch3 (counts as 1st dc throughout), 43dc.

In the last st of row 9, change to color 978. Keep a long tail of color 14607 and approx. 8 inch tail of color 978 for sewing up. (Images 15, 16)

Rows 10-16

Ch3, 43dc.

Fasten off the yarn at the end of row 16, keeping approx. 8 inches tail for sewing up. (Images 17, 18)



Sewing together

When sewing up, use the yarn tails of the matching colors. Align the color 14393 sections of the front and back so that the last row of the back piece will be sewn to the first color 978 row of the front piece. With the wrong sides together, sew the edges of the front and back together around all edges of the color 14393 section.

Align the color 14607 sections of the front and back so that the last color 14607 row of the back piece will be sewn to the last color 978 row of the front piece. Sew the edges of the front and back together around all edges of the color 14607 section.

Finally, sew the front and back together along the color 978 edges. The last row of the back pieces will overlap; sandwich the color 14393 section between the color 978 edges and finish sewing together. (Images 19-22)

Using color 978, sl-st all around the cushion cover, working 3 sl-st in the corners. (Images 23-25)

Your cushion cover is ready!
