Sailor's knot

Position the headband pieces as shown in the picture. (Image 7)

Take the right end of the strap laid across the top and slide it under the loop of the other piece.

Next, take the left end and slide it underneath the right end and over the top of the looped strap. (images 8, 9)

Take one end of the looped strap, pull it out from its starting position, and slide it under the other strap, as pictured. (Images 10, 11)

Pull evenly on all ends to close up the knot. You may find it easier to pull one side and then the other, but make sure the knot is even and centered with the same length of straps on either side. (Images 12, 13)

Sew the sides of the straps ends together.

Flip the piece over and sew the two short ends together. (Image 14, 15)

And you are done!
